

Quality Care Newsletter

Accidents or Injuries

We take precautions to prevent childhood accidents. However, as children begin testing their limitations, accidents sometimes happen. In the event your child suffers an injury at Quality Care CDC we will provide a written report of all accidents and incidents, minor or major, this report will be given to the Director for his/her awareness. A copy, signed by the staff member, parent and Director, will be kept in the child's individual file folder.

Notes and Reminder:

Parents please work with your child on their abc's and colors.

Memorial Day Holiday

In observation of Memorial Day we will be closed Monday September 7th and will re-open Tuesday September 8th. Please make alternate arrangements if you need child care.

Please check your child's paper to make sure that they do not need items for the next day.

Butterflies/Hurricanes/Busy bees/ Grasshoppers
